Professional Summary

Experienced software engineer specializing in cloud computing.

Skills

C++, C, Java, Python, Machine Learning, JavaScript

Work Experience

Backend & Outreach Team Coordinator at HEX SOCIETY ITM (SLS) Baroda University (null - null)

Senior Volunteer for Outreach team ,where I felicitate Communication Bridge between Hex Society and Social community. Also being a member of the backend team, helped manage and coordinate society events, ensuring seamless execution.

Education

1. B.tech in Computer Science And Engineering in AI & DS, ITM (SLS) Baroda University (Unknown - Unknown)

2. B.tech in CE, Baroda University (2024 - 2025)

Certifications

Microsoft Certified: Azure Solutions Architect Expert - 2028-10-20

Microsoft Certified: Azure cloud - 2030-10-20

Projects

Patient Readmission Prediction System (null - null)

Tech Used: Python, Scikit-learn, Flask, PostgreSQL

Developed an machine learning model using Scikit-learn, optimizing for key performance metrics to reduce readmissions. Utilized Flask to build an API for integrating the model into a web application, ensuring smooth interaction between the client and the backend. Implemented PostgreSQL for robust data storage and management, ensuring scalability and efficient query handling. Created an intuitive user interface, enabling healthcare providers to easily interpret and act on predictions to improve patient outcomes.

Pickleball Turf Court Booking System (null - null)

Tech Used: ReactJS, Prisma, Hono, Tailwind CSS

Successfully closed a client project focused on managing pickleball turf court bookings. Developed a user-friendly frontend using ReactJS, ensuring smooth and responsive user interactions. Utilized Prisma for efficient and scalable database management, enabling seamless data handling and retrieval. Implemented Hono for handling API requests, facilitating secure and fast data communication between the client and server. Designed an aesthetically pleasing and consistent user interface using Tailwind CSS, enhancing user experience and accessibility.

Academic Resource Management website (null - null)

Tech Used:

Created website for my college students to accesses resources for there academic preparation, also guides them with a roadmap for specialized TECH domains.
