Personal statement

Diligent and versatile D365 CE and Power Platform Functional Consultant, with a proven track record of successful project implementations. Seeking a challenging contract role to leverage multi-disciplinary expertise in leading end-to-end solutions, innovating custom integrations, and enhancing operational efficiency.

Work Experience

D365 Power Platform Lead

Contract, full-time, Sponge Group Holdings Ltd. Bristol, England. UK.

(July 2022 – April 2023)

Responsibilities include:

- Spearheaded CE Sales implementation, from requirements gathering to project completion.
- Designed and delivered a POC to illustrate integration design between D365 CE and F&SCM.
- Collaborated in mapping requirements and designing custom dual-write table maps and API plugins for systems integration.
- Created and deployed two custom model-driven apps to optimize workflows.
- Conducted training sessions for system administrators and super users, enhancing their skills and system proficiency.
- Managed project documentation within Azure DevOps, ensuring transparency and ease of reference.
- Led requirement gathering and refinement meetings to clarify project objectives and drive alignment.

Achievements:

- Streamlined ALM processes in line with best practices, eliminating existing release issues between systems.
- Introduced two well-received custom model-driven apps, enhancing process efficiency and productivity for sales and project management teams.
- Navigated complex stakeholder management, maintaining clear communication with on-site and offshore teams to ensure project success.
- Contributed to the design of custom dual-write table maps and API plugins, without compromising the out-of-the-box model.
- Led critical discovery sessions, setting the stage for Sponge's potential adoption of D365 Marketing and aligning with the company's vision of database consolidation.

D365 CE Functional Consultant

Permanent, full-time, Incremental Group. Glasgow, Scotland. UK.

(February 2021 – July 2022)

Responsibilities include:

- Participated in full project lifecycle activities, from initial workshops to project completion.
- Led analysis and design workshops, extracting and documenting requirements for successful project execution.
- Supported customers in defining and documenting their processes to align with system customisation.
- Planned project tasks, ensuring timely delivery and alignment with customer needs.
- Created and provided project documentation to keep stakeholders informed.
- Customised systems per requirements, implementing tailored solutions to meet customer objectives.
- Delivered build playbacks and training sessions to promote user understanding and system proficiency.
- Managed go-live tasks, provided customer support, and set up release pipelines in Azure DevOps.
- Ensured alignment with industry and company best practices, while staying current with evolving Power Platform and Dynamics products.

Achievements:

- Assumed 'Service Owner' responsibilities for D365 Field Service within the business.
- Secured multiple pre-sales engagements, demonstrating effective client relationship management.
- Organized and facilitated internal knowledge-sharing events.
- Assisted the internal marketing department with proofreading articles and producing engaging social media content.
- Actively contributed to the development and maintenance of best practices within the business.

D365 CE Functional Consultant

Permanent, full-time, PowerObjects. Egham, Surrey. UK.

(May 2019 – February 2021)

Responsibilities include:

- Conducted functional workshops with customers, translating requirements into appropriate solutions.
- Managed and led smaller projects, ensuring timely delivery and customer satisfaction.
- Drafted functional and solution design documents to provide clear project guidelines.
- Developed and maintained test scripts for robust system validation.
- Supported clients throughout the implementation cycle, addressing concerns and ensuring successful adoption.
- Continuously enhanced knowledge across the Power Platform stack to provide informed solutions.
- Worked effectively with both onshore and offshore functional teams.
- Delivered internal sessions on best practices and new features to promote continuous learning.

Achievements:

- Completed a field service bootcamp hosted by Microsoft, deepening product knowledge and expertise.
- Led multiple successful field service implementations of varying complexity.
- Assumed lead consultant responsibilities on smaller projects, demonstrating leadership and project management skills.
- Achieved rapid career progression through dedication and consistent high performance.

Project Management Representative

Permanent, full-time, SHL. Thames Ditton, London. UK.

(October 2018 – May 2019)

Responsibilities include:

- Oversaw key project deliverables and dependencies across diverse projects, ensuring timely progression.
- Developed, scoped, and maintained comprehensive project plans.
- Identified, monitored, and mitigated project risks and issues.
- Managed project scope, tracked milestones, and ensured timely delivery.
- Enhanced Managed Services project delivery and quality assurance by cultivating strong relationships with global clients and teams.
- Supervised offshore support resources, ensuring effective assistance.
- Safeguarded efficient client data management within the internal Salesforce system.

Achievements:

- Demonstrated rapid professional growth, progressing from handling minor projects to leading complex, end-to-end solutions with increased responsibilities.
- Conducted interactive training sessions for German-speaking clients on SHL's technology, including live platform demonstrations.

Industry experience

- Projects delivering D365 Customer Service, Field Service, Sales, Marketing, and Customer Insights in the following sectors:
 - Accounting
 - Manufacturing
 - E-learning
 - Housing
 - Banking
