Solution Architect Dynamics 365 Business Central/ Business Central
365 Functional Architect/Project manager/Process Design/Team
leader

Colombia

Summary

I am a passionate Microsoft Business Central/Navision Functional Architect who has worked with both small and large companies. I have expertise in business analysis and creating Functional requirement documents as well as performing system configuration, installation, data migration and testing according to functional documents. I have the ability to conduct research to ensure the best solution is used for the customer. I am a Self Starter with a keen eye for detail, fully dedicated to meeting clients needs and delivering implementations and services in a professional and timely manner.

Experience

Ciellos

Senior Business Central consultant

February 2022 - September 2023 (1 year 8 months)

Strategic Solutions Group (SSG)

Senior Business Central consultant

September 2021 - September 2023 (2 years 1 month)

Los Ángeles y alrededores

Analyzed the current business processes and identified gaps and opportunities for improvement.

Created a comprehensive design document outlining the project's scope, objectives, deliverables, and timeline.

Documented and analyzed functional and technical requirements, mapping them to Business Central features and functionalities.

Conducted training sessions for key users, instructing them on how to use and customize Business Central to meet their specific needs.

Managed project activities, resources, risks, and issues to ensure the timely and high-quality delivery of project outcomes.

Designed the architecture of the Business Central solution, including integration with other systems, data migration, security, and performance optimization.

4WAYSTECH

Team Leader

December 2022 - August 2023 (9 months)

Puerto Rico

Led and supervised a team of [number] professionals in the implementation, customization, and support of Microsoft Dynamics 365 Business Central projects.

Managed project lifecycles, ensuring the successful delivery of ERP solutions within scope, timeline, and budget.

Collaborated with cross-functional teams, including developers, analysts, and business stakeholders, to gather requirements and design customized Business Central solutions tailored to clients' needs.

Oversaw the planning and execution of data migration, system integration, and user training, resulting in seamless transitions for clients.

Maintained a high level of client satisfaction through effective communication, issue resolution, and ongoing support post-implementation.

Spearheaded process improvement initiatives, optimizing team efficiency and project delivery.

Stayed current with industry trends and updates, providing team members with training and guidance to ensure expertise in Business Central and related technologies.

Demonstrated leadership by setting clear objectives, providing regular feedback, and fostering a collaborative and motivated team environment.

Acted as a subject matter expert in Business Central, assisting team members in resolving complex technical issues and delivering solutions that exceeded client expectations.

Successfully managed multiple concurrent projects, prioritizing tasks and resources to meet deadlines and deliver exceptional results
